### \$3.50 Recipe Cures Weak Men—FREE

Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excessive unnatural drains, of the follies of youth, that has cured so many weak and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor failure ever put together.  
I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicine, and secure what I believe is the quickest acting restorative, upbuilding, SPOT TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4049 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

## UPTON COUNTY TO BE ORGANIZED SOON

Midland Telegrapher Jailed Over Supposed Liquor Shipments from El Paso.

Midland, Texas, Feb. 16.—Upton county is to be organized by May 1. The citizens are now signing a petition to that effect. The county has a sufficient population to enable the voters to have a self government. The petition will be presented to the commissioners of Midland county at their next session. Taxes are already being assessed in Upton county, as the citizens are sure of being allowed to organize.

The grand jury met Monday and started to business. Manager J. A. Skipper of the western Union Telegraph company was placed in jail for contempt of court. Mr. Skipper refused to turn over the Western Union Telegraph company records of the messages that were sent. It is the general opinion that they were concerning liquor shipments from El Paso to Midland. The superintendent of the Western Union Telegraph company, of Dallas, Texas, Dallas, so they were removed and local manager Skipper released. The court then fined the superintendent \$100 and three days in jail. It has not been settled yet, as it is still in the courts. The automobile of C. Scharbauer was burned up last night. There seemed to be a short-circuit in the wiring on the car that caused the fire.

### Best Irrigated Area In Mexico

### The International Realty Company of Mexico City

has bought, and offers for sale, 66,000 acres of the choicest River bottom alluvium at "Bebelama," State of Sinaloa, Mexico.  
Abundant water from the Sinaloa River is delivered to each purchaser at the highest point on his land. Land also fronts on ocean shore and two harbors afford facilities for ocean transportation by coasting steamers. Everything that one can expect to raise in this latitude can be grown profitably here. Three crops of some kinds, if desired, and alfalfa, about ten cuttings.

Climate is ideal. Trade wind tempers summer heat, while nearness to ocean prevents frost and mean range of temperature is but 30 degrees, 60 to 90 degrees Fahrenheit. Elevation 20 to 40 feet above sea level.

Property lies about fifteen miles below the Bamao, or Naranjo Stations of the R. Y. C. and Pacific Railway, to which a spur track will be built, affording the best and lowest rates for freights and fares.

To those buying now, these lands will be sold at bed rock price of \$20.00 U. S. Currency per acre, payable in three installments, one-third cash, balance in one and two years with 8% per annum interest on deferred payments. All of the water required for irrigation of each tract will be furnished by the Bebelama Water Company at price of \$2.00 U. S. Currency per acre per annum perpetually.

General Henry Ide Willey, the distinguished Irrigation Engineer, in his report upon this project, states that:

"In all respects it presents phenomenally favorable features, nothing equaling it has ever been found by me in all my extensive experience."  
The land is divided into tracts of about 60 acres area each, or 250x1000 meters, and not less than 30 acres can be bought until the contemplated Town Sites are segregated.

## EL PASO FURNISHED REMINGTON A MODEL FOR SADDLE IN A STATUE

He Found the Saddle in an El Paso Livery Stable and Its Counterpart Is in a Philadelphia Monument.

"Remington was in love with El Paso." said Henry Smith, recently resigned park commissioner of New York city, at the St. Regis hotel. Mr. Smith came to El Paso with the late Frederick Remington, artist of things western, about three years ago. And since the New York attorney and the great American artist are lifelong friends, he knows what he is talking about.  
"Yes, Mr. Remington liked El Paso very much, indeed. We went up to Cloudcroft and he got some ideas there and also he sketched the side of a mountain near Alamogordo.  
"This may interest El Paso people! While here Mr. Remington was looking for a certain variety of old range saddle, almost extinct now. He wanted it very badly and we made the rounds of the city. Finally in an old livery stable we found what he wanted so badly. It was up in the hay loft and down in the office of the stable were some copies of Remington pictures. That was strange, wasn't it?  
"Now the counterpart of that old saddle found by Remington himself in the old El Paso livery stable, may be seen on an equestrian statue of a cowboy, which was recently erected in Philadelphia."

**On Parks and Paving.**  
As three years' park commissioner of the largest city in America, Mr. Smith should know what he is talking about in regard to parks. For The Herald he gave some advice to El Paso like this: "When you get ready for parks remember to keep away from the set, the conventional. A broken rock beats a piece of concrete anytime. You have the rock and can get it cheap. It is not the money spent on a park; it is the way it is spent. It is better to pay for an expert who knows the artistic than to pay for concrete and sod. Yes, I have built parks, lots of them.  
"Pavement? Well, I would advise the block asphalt. It is cheaper in the long run. Your bitulithic does very well, but it cannot be patched easily. And the patches show, too. This block pavement set on a good concrete foundation will last years, and may be patched or altered at little expense or trouble."  
Mr. Smith, accompanied by his wife, is returning by way of Mexico from a trip to Cuba. He leaves El Paso tomorrow for a run up the grand canon.
